PROFILE

Versatile and results-oriented Computing Professional with practical exposure to software development, data science, computer applications, and digital technologies, complemented by experience in computer tutoring and hands-on work alongside experience in writing work. Possesses strong problem-solving, analytical, communication, and teamwork skills, with the ability to learn quickly and adapt to new technologies and working environments. Passionate about using technology to develop practical solutions, improve efficiency, and contribute meaningfully to organizational goals.

WORK EXPERIENCE

Jomu Technologies Computer College — 2019 - 2020

Computer Tutor and Cyber Attendant

- Tutored students in basic computer skills and computer applications, digital tools, and essential computing concepts.
- Assisted clients with internet access, online applications, document preparation, printing, scanning, photocopying, typing, and other cyber-related services.
- Troubleshot common computer, software, printing, connectivity, and user-related technical issues.
- Supported learners during practical sessions and explained computing concepts in a clear, simple, and practical manner.
- Assisted with installation, configuration, and basic maintenance of computer software and applications.
- Developed strong communication, problem-solving, customer service, and technical support skills through daily interaction with diverse users.

Freelance Writer — 2022 - 2023

- Conducted independent research and produced well-structured academic and general content across diverse subjects.
- Wrote essays, research papers, reports, case studies, literature reviews, and other client-requested assignments.
- Analysed information from multiple sources and synthesised findings into clear, coherent and original content.
- Adapted writing style, structure and tone to meet different client requirements and assignment guidelines.
- Developed strong research, written communication, critical thinking, time-management and attention-to-detail skills.
